

Datacard® IDCentre™ Gold Identification Software

IDCentre Gold edition software is the ultimate package in card design and production, featuring biometric capabilities and education plug-ins for more advanced programs.

Complete ID program solutions

Datacard® IDCentre™ Gold identification software is the ideal choice for today's most sophisticated ID programs. Separate packages for design and production — combined with biometric and smart card capabilities — create one of the most powerful and complete ID program solutions available. This modular platform enables you to maintain total control over all the cards, reports and forms in your program.

Advanced features for sophisticated ID cards

- Datacard® IDCentre™ Gold Production software makes it easy to enter and retrieve data, capture images and print cards and reports using an intuitive interface.
- Datacard® IDCentre™ Gold Designer software allows you to customize the look of cards, reports and production forms, as well as connect forms to ODBC-compliant, multiple-table databases.
- Gold Designer software enables access to ID information stored in a directory service via the LDAP.
- Plug-ins for SASI and Lifetouch allow you to import and export images directly from these image management applications.

Datacard® IDCentre™ Gold Identification Software

With separate packages for card design and production, IDCentre Gold software allows you to distribute workflow effectively in your secure ID card programs.
