

## Evolis Card Printers

Evolis offers small size desktop card printers as well as high performance industrial printers for large ID card projects. Modern technology as well as very user friendly handling distinguish these professional print systems.

### **Evolis Tattoo**

This extremely compact monochrome plastic card printer personalises preprinted or blank plastic cards in a matter of seconds - ideal for the production of visitor badges, customer cards, etc.

### **Evolis Pebble**

Easy to use and cost saving. The Pebble was created in order to process cards from small series up to large volumes in a cost effective way.

### **Evolis Dualys**

This powerful industrial printer with its built-in turnover unit processes up to 1.000 full color cards without reloading of cards or ribbons - and is thus perfect for large quantities of cards.

### **Evolis Quantum**

Speed and Printing Quality, numerous encoding options and easy handling make the Dualys one of the best solutions in the market for dual sided personalisation of your cards.
