

Fargo Card Printers

Fargo card printers combine professional print quality with highest user convenience. Clever details such as the SmartLoad ribbon cartridge take care of easy use. Without the need of intensive training, an operator can quickly start personalising ID cards.

Fargo DTC 400

An optional module also allows dual sided card printing - with this feature, both card sides can be printed in one process. Additional E Card modules allow for encoding of chip cards.

The ribbon cartridge contains a patented cleaning roll. This feature automatically removes dust and debris from the card surface in order to avoid quality problems or potential damages.

Fargo DTC 550

The user friendly Print Security Suite provides five powerful applications for controlling, monitoring, maintenance, and security of the system - which make the DTC 550 one of the most secure printers in its class.

Fargo Persona C30

Produce secure ID cards in highest quality easily: Optionally, the C30 prints both card sides in one process - a comfort feature that saves time.
