

Datacard® Photo Pointe™ Lite Solution

The Photo Pointe Lite solution helps ensure affordable, image capture for low-volume card applications.

Cost-effective, high-quality image capture

When speed is not your first priority — but image quality is critical — choose the Datacard® Photo Pointe™ Lite solution. This affordable, fully integrated solution is the right choice for small businesses, schools and other cost-conscious organizations that want better performance, image quality and ease of use than a digital or Web camera with TWAIN or Microsoft® Video for Windows® drivers can provide.

Equipped to meet a variety of needs

- The solution includes a digital camera and user-friendly Photo Pointe Lite software.
- Photo Pointe Lite software easily integrates with all versions of Datacard® IDCentre™ identification software.
- The internal flash of the digital camera remains fully operational, even when tethered to a desktop PC, which helps optimize lighting in a variety of operating conditions.
- To help operators acquire the right image every time, the Photo Pointe Lite solution allows you to preview images via live video prior to capture.

Datacard® Photo Pointe™ Lite Solution

Choose the affordable, integrated Photo Pointe Lite solution to capture high-quality images in low-volume applications.
